## **Adhesion Warranty Submittal Procedure**

1. Contractor must submit a completed *Project Material Profile* prior to job start up. Please include drawings, details, specifications and number of squares of insulation to be installed (tapered systems). Polyfoam will review the Project Material Profile and, if approved, will assign a project number.
2. Once the *Project Material Profile* has been approved and a project number has been assigned, Polyfoam will issue a *Letter of Intent to Warrant*, which must be signed by the contractor and returned to Polyfoam as part of the warranty submittal.
3. A *job start up form* must be completed and signed by an authorized Polyfoam Representative or a qualified applicator with a current Polyfoam Products *Qualified Applicator Certificate*.
4. *The contractor will advise Polyfoam when the job is completed so that a warranty inspection can be scheduled.*

### **The following documents are required for warranty submittals:**

- A copy of the Letter of Intent to Warrant signed by the contractor
- A completed job start up form
- Payment for extended warranty (where applicable)
- The original Daily Calibration Log

**Note: No warranty will be issued without an approved Project Material Profile on file.**

## **Extended Warranty**

- An Extended Warranty can be applied for on a limited basis.
- A smooth surface BUR **is not** a candidate for an Extended Warranty.

- The cost for a 15 year warranty is:

10,000 sq.ft. or less of ***material applied:***      \$ 350.00

Over 10,00 sq.ft. of ***material applied:***      .035 per sq. ft.

- Application for an Extended Warranty must be indicated on the Project Material Profile form.
